

SERVIR

SERVIR connects space to village by making geospatial information useful to developing countries. SERVIR is a joint development initiative of NASA and USAID, working in partnership with leading regional organizations around the globe.

By the Numbers: 2015

EXPANDING AROUND THE GLOBE

47

countries directly served by SERVIR products, applications, or trainings

22

satellites and sensor data used by SERVIR

58

countries benefiting from SERVIR cooperation

TRAINING AND INFORMATION SHARING

2894

people trained to use tools and information

155

institutions worldwide with improved capacity to address climate change issues

341

decision-makers and scientists participating in technical exchanges

PRODUCTS, TOOLS, AND SERVICES

70

climate change adaptation and mitigation products developed

1.5M

maps produced interactively on the SERVIR web portal

CONNECTING MORE SCIENCE

6

United States Government science expertise connections (2015)

11

SERVIR Applied Sciences Team projects (2015)
