

Supporting the Low-Carbon Transition

MISSION

The U.S. Government partners with countries to create and implement low-emission development frameworks that promote sustainable social and economic development while reducing greenhouse gas emissions over the medium to long term.

RESULTS (2010-2016)

Empowering Stakeholders

264,136
Men and women trained

5,246
Institutions with strengthened capacity

1,785
Laws or policies

103
Mitigation tools in use

Spurring National Action

\$12.9 BILLION
Mobilized to support low-emission development action

4.3 MILLION
Hectares under sustainable management

3.1 MILLION
Megawatt-hours of energy saved

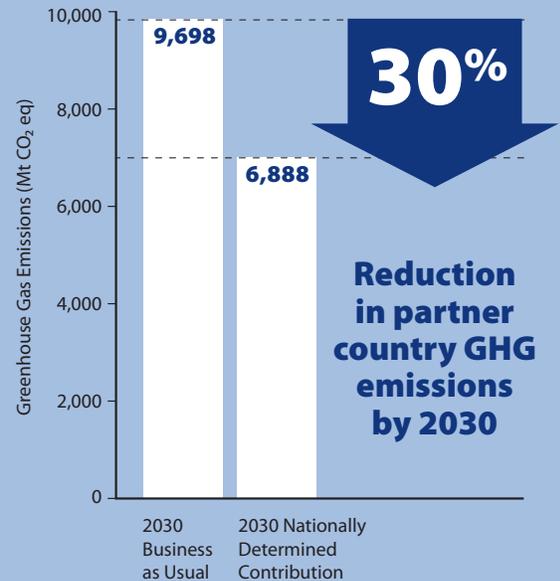

2,735
Megawatts of renewable energy installed

13
Partner countries assisted in developing Nationally Determined Contributions

Realizing Global Impact

HIGHLIGHTS

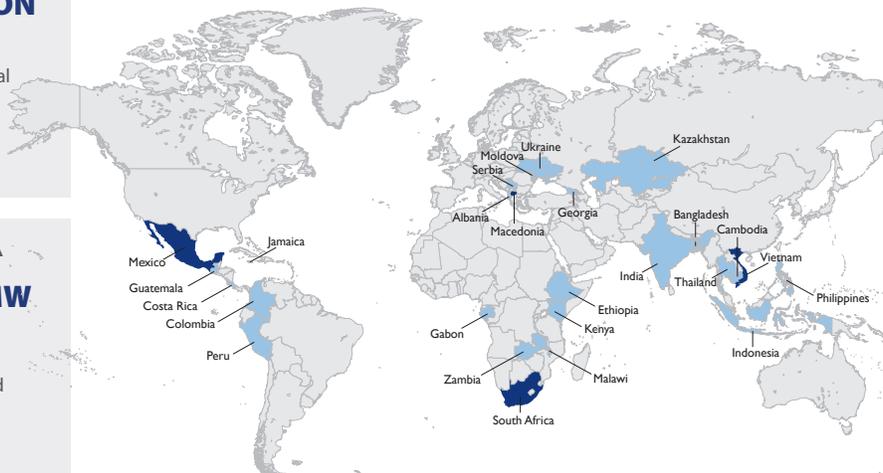

MEXICO
\$6 BILLION

Mobilized for solar, wind and geothermal energy through energy auctions.

MACEDONIA
>115 MW

Renewable energy capacity installed through streamlined permitting.

PARTNER COUNTRIES

SOUTH AFRICA

\$200 MILLION

Mobilized to finance debt for small-scale renewable energy projects.

VIETNAM
890,000 HECTARES

Forest managed sustainably.
