

PROMOTING ENHANCED REGIONAL COLLABORATION

Promoting greater deployment of renewable energy (RE) at a national level is a primary objective of USAID Clean Power Asia, and as a regional program, unique opportunities exist to engage both the public and private sector to increase the amount of RE across Southeast Asia. Supporting enhanced collaboration throughout the region builds a foundation for sharing knowledge, leveraging resources, and replicating best practices.

Regional Coordination

USAID Clean Power Asia is encouraging collaboration among national governments and regional organizations to improve power sector planning and policies and to mobilize investment for RE, leading to greater energy stability and security, reduced harm to the environment, and improved economic growth and living standards for everyone.

Communication and Outreach

From Bangkok to Bandung, ministry to marketplace, USAID Clean Power Asia delivers crucial information to governments, businesses, and households, raising awareness of the vast and varied benefits of renewable energy.

Website

A one-stop shop for everything from the latest RE news and videos to technical reports and toolkits.

Resources

Factsheets and promotional materials designed for broad understanding of program objectives and approaches.

RE**brief**

Monthly e-newsletter delivering the latest news and views throughout the RE sector. Sign up online today!

Smart Development

The effectiveness of program interventions and technical assistance is enhanced when the engagement of partners allows for greater uptake of technical innovations and guaranteed equal access for all citizens.

Gender Equality

Encouraging equal opportunities for men and women to engage in the production and use of renewable energy.

Partnerships

Leveraging knowledge and resources of stakeholders to amplify program impacts and promote the broadly shared benefits of RE.

Science & Technology

Supporting positive efforts to use the best science and emerging technologies to increase the impact of investments.
